

Mid-Missouri Summer Swim Conference
Special Meeting
March 28th, 2012

The following teams were in attendance: Mexico, Sedalia, Boonville, Eldon, Jefferson City, California, Fulton, and Centralia

Meeting was called to order by Boonville.

We discussed Waverly swim team joining our conference, they currently run around 30-32 swimmers. They only swim during the summer months. The pool they use is not regulation pool, neither meters nor yards. Motion was passed by all that Waverly join the conference.

We discussed Washington swim team joining our conference, they currently run around 90 swimmers during the winter and 40-50 swimmers during the summer. They swim both USA and YMCA in the off season. They have a 25yard indoor pool that they would use for meets and they also have a 52meter outdoor pool they use as well. Motion was passed by majority for Washington joining our conference.

There was some discussion about possibly splitting the conference into an East/West or a North/South division to help the congestion at championship. Each division would host a championship then there would be a big championship between the top few swimmers from the division championships. There was no decision made, some were for it and some were against it for many reasons.
